

Dangerous Goods - CBT/WBT

Target Population:

The Pelesys Dangerous Goods course is designed for experienced Airline Pilots and Flight Dispatchers requiring initial or recurrent ground school transportation of Dangerous Goods by aircraft. This version is for crews operating in Canadian registered aircraft.

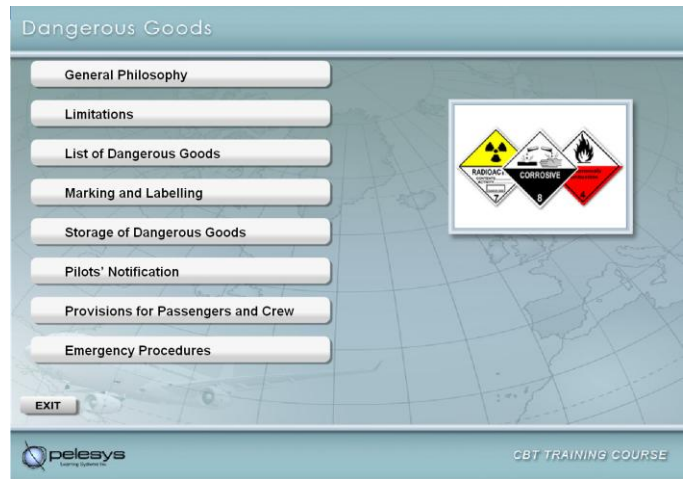

Length of Course:

This is a self-paced, self-instructional modularized course designed to deliver approximately 1 hour of instruction.

Regulatory Compliance:

FAA / JAA / CAA / Transport Canada / IOSA

Goal of the Course:

The goal of the Dangerous Goods course is to enable Flight crew to learn the hazards and operational procedures required to operate an aircraft carrying goods that are designated as dangerous goods or restricted for transport by air. This syllabus is required by CAR for Commercial Air Service.
